

Filing Manager - comes equipped with robots as standard

Filing disclosures with regulators takes time, money and is often a manual and laborious process.

That's why our Filing Manager service comes equipped with robots to automate shareholding disclosure filings.

This killer feature is designed to make your daily workflow effortless, secure and cost-effective.

Filing Manager does the hard work of filing, so you don't have to.

- Filing Manager creates a disclosure report ready to be sent to regulators in just one-click.
- You review & simply press "Send" from your dashboard to file with regulators.
- The regulator confirms a successful submission & the status of the disclosure is updated.
- Filing Manager keeps a copy of the confirmation message for audit.

Upload your position data to our service

Disclosable positions are sent to Filing Manager

Data is ready to be reviewed and sent to the regulator

The regulator acknowledges your filing
